Welcome to the unique island of Mallorca
Dear Doctor,

The DENTSPLY GAC 2016 Orthodontic World Congress is dedicated to bringing top quality professional and clinical development to further the advancement and discussion within the orthodontic community. This year’s conference will include notable speakers, workshops tailored for orthodontists and staff, group discussions, and day and a half day of main congress with 7 international speakers.

The 2016 OWC – Europe brings together orthodontists from around the world for an afternoon of useful and interesting workshops and two days of meetings, insightful speakers, recreation and plenty of networking time that we are sure will create a community of valuable relationships. We look forward to seeing you in Porto Petro, Mallorca, SPAIN.

The DENTSPLY GAC Team
A Privilege by the Sea ~
Where Business meets Pleasure

Congress location
Hotel Blau Porto Petro
Beach Resort & Spa*****
Carrer des Far, 16
07691 Porto Petro (Santanyi)
Mallorca, Spain

About the Blau Resort, Porto Petro

This 5 stars resort nestles along 500 meters of seacoast on the eastern coast of Mallorca. It offers two beautiful sandy coves, next to the picturesque fishing village and Marine of Porto Petro.

It perfectly blends nature and technology with exquisite service in order to satisfy the highest expectations of both leisure and business travelers.

With large terraces, games and reading rooms, a modern auditorium for meetings, three swimming pools and a variety of bars and restaurants with sea views – the Blau Petro Resort is an ideal setting to enjoy the best Mallorca can offer!
Join us on **Friday, October 7th** evening, for a Cocktail Party at the Blau Porto Petro Resort. We will all dive into the 1920’s and have a Great Gatsby fantastic evening. Accessories will be provided.
**THURSDAY OCTOBER 6, 2016**

**Afternoon Interactive Workshops**
**13:00–18:00**

Choose any of 5 optional workshops; each of a duration of 45 minutes. This year we offer a “Menu” of topics to choose from at all a single price! *Limited to 20 participants per session.*

*Amandine Besnier-Feyt and Dr. Adrian Carbajosa (Spain)*  
**CCO™: New System for Active SL Brackets**  
Part II – Bracket Placement Tips and Tricks  
*Drs. Oliver Liebl (Germany) and Sandy Van Teeseling (Holland)*  
**Lingual – Mechanics with Typodont, Tips and Tricks**  
*Dr. Panagiotis Kanarelis (France)*  
**Sirona Digital Scanning: Tricks and Scanning Competition**  
*– Dr. Yong-min Jo (Germany)*  
**New BBC Pin – New anchorage Device for Orthodontic Treatments**  
*– Dr. Enrico Pasin (Germany)*  

These simultaneous presentations are scheduled as menu options, offering you to participate in all or some of the options presented.
FRIDAY OCTOBER 7, 2016
9:00–17:30

Treating Complex Clinical Cases
Dr. Ryan Tamburrino

The CCO™ System helps the clinician to deliver quality treatment even in challenging situations. Impacted teeth, restorative cases and/or periodontally compromised patients are becoming more prevalent in our offices. A multidisciplinary treatment approach is the key to success. This presentation will focus on treatment of complex cases where the CCO™ System is integrated within the overall treatment plan of the patient.

Non-Surgical Bone Anchored Class III Treatment: New Perspectives
Dr. Giuliano Maino

Class III malocclusion is one of the most challenging malocclusion to be treated. A non-surgical treatment protocol for Class III malocclusions by using mini-screws and circummaxillary sutures activation, and a new 3D digital method to plan and insert miniscrews in the palatal vault, will be shown. Results on 30 consecutive treated cases will be discussed.

Beyond the smile
Univ. Doz. Dr. Frank Weiland

Beautiful teeth and a healthy smile are seen as a sign of youth. Esthetics, however, are only one goal of orthodontic treatment, the more important ones being oral health with good cranio-mandibular function and periodontal stability long term. This lecture will discuss several aspects of orthodontic treatment and setting orthodontic treatment goals beyond the smile. And evidence shows that precision beyond superficiality pays off!

Stories, Fears and Influences: the Impact our Leadership has on others
Andrew Hambly-Smith

A pebble thrown into water, creates ripples. When someone enters a room, they influence. You cannot fail to influence any more than the pebble fails to create a ripple. This session will explore our impact and we’ll start with our own stories - the ones which dominate our behavior. Then we’ll move on to explore facets of our leadership and skill to influence.
SATURDAY OCTOBER 8, 2016
10:00–13:30

Effective techniques for efficient retention and relapse management
Prof. Dietmar Segner and Dr. Dagmar Ibe

The presentation will show ways to preserve the good results long-term and thereby positively influence the reputation of your practice. Reliable retention methods can become part of a better treatment and can be integrated into the practice routine economically and organizationally. Nevertheless, slight relapses may happen and it is advantageous to know how to correct such small relapse problems without much effort and cost.

The complete digital orthodontic office with 3D technology
Dr. Yong-min Jo

The lecture will explain the process of “digitalization” with an in-depth look into intraoral scanning and cast scanning. Only with the right software processes can you organize the “cast-less” orthodontic office and use the digital workflow to your advantage. The lecture will answer questions like: How does digital scanning work? What systems are out there? The lecture will also examine the digital processes after the scan and explain the impact of 3D printing for the orthodontic office.
Places to visit in Palma
- Cathedral, Palau de La Almudaina, La Lonja and Old quarter
- Palau March
- Museum “Es Baluard”
- Jaime III, Paseo del Borne, San Nicolas (for shopping).

Things to see
- Trip to the North Coast: You should rent a car and from Palma go to Valldemosa, Deia and then Puerto de Soller along the coast (You can then return straight to Palma through the tunnel).

Beaches
- Es Trenc (you have to go to Campos and then follow the signals).
- Formentor (you have to go to Inca and then Puerto de Pollensa). Here you can have lunch at the Hotel’s Beach House) You must stop to take a look at the views!

You have to try ...
- Ensaimadas, Cuartos, Coca de Trampo (at “Can Joan d’es Aigo” in Palma, very close to Jaime III – Calle Santa María del Sepulcro).
- Cocos de Patata (Valldemossa).
Please visit [www.owceurope.com](http://www.owceurope.com) to register for this event.

**Workshop/Congress and Cocktail party**

**OCTOBER 6–8, 2016**
